He is right. I feel the same. **#MeToo**  is politically charged and has and will **#SetBack** women by decades.

Replying to @carolmswain @CNN @nytimes

Absolutely! Not to mention because of all these false accusations and the abuse of **#MeToo**  movement, It will be very difficult to find jobs for women because let's face it, who would want to hire a liability! These people have hurt women and set us back more than any group!
